

Kids, Kows & More is a FREE school field trip for students from 3rd & 4th grades that focuses on how everyday agricultural products are produced.

Kids, Kows & More shows students that agriculture is not some abstract idea – it is the food they eat & the clothes they wear every day!

Southwest Dairy
Farmers

Programs Include:

Mobile Dairy Classroom

Did you know that Chocolate Milk is the NEW sports drink for athletes? Come and learn about the nutritional importance that milk adds to your life. See a real cow being milked; where milk really comes from and the positive interaction of dairies in our environment.

Beef & Cattle Ranching

Learn about ranchers & farmers everyday stewardship of the land. Explore how they take care of their livestock and produce food for the world, while maintaining the integrity of the land, wildlife and surrounding environment.

Emergency Preparedness

Receive a beginning emergency supply kit. Learn the importance of preparing for unexpected emergencies.

"IF YOU SEE SOMETHING, SAY SOMETHING!"

Bee Keeping

Did you know?

- Honeybees can fly approximately 15 miles per hour.
- Honey is the ONLY food that includes all the substances necessary to sustain life, including water.
- A typical beehive makes more than 400 pounds of honey per year

Your student will explore the fascinating world of beekeeping & honey.

New Mexico Chile

New Mexico has a rich history that is colored Red and Green! Learn about how yummy New Mexico chile is grown and how it ends up on your table at home.

Farm Tour

Take a tour of the NMSU – Los Lunas Agricultural Science Center and learn about the experiments being conducted at the farm. The research from this farm helps farmers around New Mexico with their crop production.

Water Conservation

Students will learn about the importance of water conservation. The water trailers enable

the teaching of the function of a river system and how drought affects everyone. This hands-on tool allows us to stress conservation, riparian restoration, & river health.
